This year's event offers an impressive 60 courses - including some new ones - all delivered by experienced Instructors, and supported by dedicated Teaching Assistants:

- Three FREE, lecture style early-morning courses - a Maths Refresher, Philosophy and Methodology of the Social Sciences, and a new course on Visualisation of Information

The exciting plenary programme facilitates valuable networking opportunities,

putting you in touch with people who share your research interests. This Winter School also sees the return of our popular Methods Café, along with lunchtime debates on hot topics in the discipline.
