The International Society for Quality-of-life Studies (ISQOLS) is holding its 15th Conference from September 27th to 30th 2017 in the beautiful city of Innsbruck, Austria. The conference's theme is "Quality-of-life: Towards a Better Society". ISQOLS conferences provide a space for scholars to present their research findings on quality-of-life, well-being, and happiness, as well as to discuss their relevance for policy making. ISQOLS gathers scholars from all corners of the world, from many disciplines, with different methodological and theoretical perspectives, and following different approaches, but with one common goal: generating research-based knowledge to contribute to the well-being in societies.
